

DEPARTMENT OF ENTOMOLOGY SEMINAR SERIES
SPRING SEMESTER 2008

Mondays, 4.10 pm, E164 Lagomarcino Hall unless stated otherwise

- Feb 18 [Dr. Jarrad Prasifka](#), USDA, ARS, Ames, IA
Applications of Insect Ecology to Integrated Pest Management
- 25 [Dr. Lyric Bartholomay](#), Department of Entomology, ISU
Comparative Immunology of Arthropod Cellular Responses to Pathogens
- Mar 3 **Miriam Lopez**, USDA, ARS and Department of Entomology, ISU
Bt-Resistant European Corn Borers and *Nosema pyrausta*: Implications for Resistance Evolution
MS thesis seminar
- 10 **Dr. Jim Baum**, Monstanto Company, Chesterfield, MI
RNAi as an Insect Control Strategy
- 31 [Dr. Tom Bellows](#), Department of Entomology, University of California, Riverside, CA
Biological Control: The Perfect Blend of Research, Development, and Extension
- Apr 7 F. Wendell Miller Lecture
[Dr. Gerald Reeck](#), Department of Biochemistry, Kansas State University, Manhattan, KS
Molecular Genetics of the Aphid Salivary Gland
Cosponsored by the Center for Plant Responses to Environmental Stresses
- 14 [Paul A. Dahm](#) Memorial Lecture:
[Dr. Jeff Bloomquist](#), Department of Entomology, Virginia Tech, Blacksburg, VA
Novel and Selective Anticholinesterases for Control of the Malaria Mosquito, *Anopheles gambiae*
- 21 EGSO speaker and F. Wendell Miller Lecture
[Dr. Diana Cox-Foster](#), Pennsylvania State University, University Park, PA
Intricacies in the Dance of the Bees, Mites, and Pathogens; Ecological and Molecular interactions
- 21 *Note time and location: 7 pm Sun Room, Memorial Union*
EGSO speaker and F. Wendell Miller Lecture
[Dr. Diana Cox-Foster](#), Pennsylvania State University, University Park, PA
The Plight of the Honey Bees: What's the Newest Buzz on Colony Collapse Disorder?
- 28 **Wayne Ohnesorg**, Department of Entomology, ISU
Non-target Impacts on Natural Enemies and Native Aphids due to Soybean Aphid Management
MS thesis seminar
