Internal Competition: Blavatnik National Awards for Young Scientists

Blavatnik National Awards for Young Scientists recognize the country’s most promising young faculty-rank scientists and engineers within the broad disciplinary categories of life sciences, physical sciences and engineering, and chemistry. One Blavatnik Laureate in each disciplinary category will receive $250,000 in unrestricted funds and an opportunity to publish in Annals of the New York Academy of Sciences. Nominees must have been born in or after 1975. Internal nominations must be submitted by Nov. 2. For internal submission guidelines, contact Sue Shipitalo (sueship@iastate.edu) or Donna Van Pelt (dvanpelt@foundation.iastate.edu). More

Limited Submission: Sloan Research Fellowship Applications Due Sept. 15

Alfred P. Sloan Foundation awards Sloan Research Fellowships to stimulate fundamental research by early-career scientists and scholars of outstanding promise. Successful candidates receive a two-year fellowship of $60,000 to use for equipment, technical assistance, professional travel, trainee support, summer salary or any other research-related activity. Candidates must be conducting basic research in chemistry, computational or evolutionary molecular biology, computer science, economics, mathematics, neuroscience, ocean sciences or physics and hold a Ph.D. awarded on or after Sept. 1, 2010 (exceptions may apply). Submissions are limited to three per department. Interested individuals should contact their associate dean of research and department chair. More

Funding Information, Opportunities and Deadline Reminders

Dates listed are application deadlines. Contact: Roxanne Clemens, rclemens@iastate.edu

Additional information is posted at CALS Pre-Award Resources.

Aug. 24 (letter of intent): NOAA FY 2017 Climate Program Office - Climate and Atmospheric Research; $50,000 to $300,000 per year, up to three years. More

Aug. 29: EPA Region 7 Sustainable Materials Management Program. More

Sept. 6 (letter of intent): DOE FY 2017 Small Business Innovation Research and Small Business Technology Transfer Phase I; applicant must be small business. More

Sept. 8 (pre-application): DOE Office of Science - Early Career Research Program; $750,000 over five years. More

Sept. 12: EPA Modeling of Climate Change Mitigation, Impacts and Adaptation FY 2016; $100,000 to $250,000 per year, up to five years. More

Nov. 18: DOD Robots in Manufacturing Environments Manufacturing Innovation Institute. More

Dec. 25 (letter of intent): NIH Center of Excellence for Research on Complementary and Integrative Health (P01). More

Oct. 1, Feb. 1, April 1 (letter of intent 8 weeks prior to application date): FDA Scientific Conference Grant Program (R13); $25,000 to $50,000. More
