DEPARTMENT OF ENTOMOLOGY SEMINAR SERIES
SPRING SEMESTER 2017
Mondays, 4.10 p.m. E164 Lagomarcino Hall (unless otherwise noted)

Jan 30  Dr. Hyeog Sun Kwon, Iowa State University, Department of Entomology
 Title: Mosquito hemocyte contributions to malaria parasite infection.

Feb 6 ISU Monarch Workgroup
 Title: ISU Monarch Workgroup projects: Progress and prospects.
 Co-sponsored by EEB / EEOB

13 Dr. David Onstad, DuPont Pioneer
 Title: To integrate or not: Natural enemies and insecticidal traits.

20 Eric Clifton, Iowa State University, Department of Entomology
 Title: Management of soybean pests with seed treatments, host plant resistance and induced systemic resistance. Ph.D. defense seminar

27 Shelby Pritchard, Iowa State University, Department of Entomology
 Title: Internal and external barriers to herbivory: What's the best defense against the Soybean Aphid? M.Sc. defense seminar

March 6 Ruben (Isai) Madriz, Iowa State University, Department of Entomology
 Title: Revision of the Primitive Crane Flies (Diptera: Tanyderidae).
 Ph.D. defense seminar

13 NO seminar (Spring Break)

20 Dr. Reed Johnson, The Ohio State University, Department of Entomology
 Title: Corn, soybeans and honey bees.
 Co-sponsored by EEB / EEOB

27 Dr. Judy Wu-Smart, University of Nebraska, Department of Entomology
 Title: Effects of neonicotinoids on honey bee and bumble bee queens and impacts on colony development.
 Co-sponsored by EEB / EEOB

April 3 Dr. Matt Kaiser, Iowa State University, Department of Entomology
 Title: Biological control and host plant resistance as tools for area-wide management of the soybean aphid.

10 Dr. Sean Schoville, University of Wisconsin, Department of Entomology
 Title: Landscape genomics approaches in agriculture, conservation and evolutionary research
 Entomology Graduate Student Organization (EGSO) speaker

20 Dr. Corrie Moreau, Field Museum of Natural History, Integrative Research Center
 Title: Ants, plants, and bacteria: Symbiosis as a driver of evolutionary diversification.
 Thursday, 3:45-5:00 p.m., 210 Bessey Hall
 EEB / EEOB speaker co-sponsored by Entomology

24 Dr. Murray Isman, University of British Columbia, Faculty of Land & Food Systems
 Title: Botanical insecticides: the magic of mixtures.
 Dahm Memorial Lecture

The ENT seminar series is coordinated by Greg Courtney and Rick Hellmich. Please contact either of us with questions related to speakers’ visits.
