CALS Funding Opportunities 4-18-16

USAID: Combating Zika and Future Threats - A Grand Challenge for Development

USAID is calling for the global innovator community to generate technologies and approaches to fight Zika in the near term and to help strengthen the world’s response to infectious diseases in the future. The USAID Grant Challenge seeks vector control, personal protection, surveillance, sample transport and community engagement. Awards will be in the range of $100,000 to $1 million. Zika response-focused expressions of interest are due May 20. Other expressions of interest are due June 17. More

Funding Information, Opportunities and Deadline Reminders

Dates listed are application deadlines. Contact: Roxanne Clemens, rclemens@iastate.edu
