Funding Opportunities from CALS Newsletter April 27, 2015

**ISU Biobased Industry Center Requests Proposals**
The ISU Biobased Industry Center is requesting grant proposals focused on the national and global economic, business, social and workforce policy impacts that improve the biobased industry’s profitability, sustainability and carbon and greenhouse gas impacts. Past awards have ranged from $25,000 to $75,000. Proposals are due by May 10. Contact: rjsmith@iastate.edu

**VPR Office Accepting Notice of Interest for USDA Rural Health and Safety Education**
The VPR Office is accepting notices of interest for USDA NIFA’s Rural Health and Safety Education Competitive Grants Program. Proposals are expected to be community-based, outreach education programs in individual, family and environmental health. Awards are limited to one per region. Send notices of interest to sueship@iastate.edu by April 27. More

**Funding Information, Opportunities and Deadline Reminders**
Dates listed are application deadlines. Contact: Roxanne Clemens, rclemens@iastate.edu
