

## **CALS Funding Opportunities April 24, 2017**

### **Limited Submission: USDA Women and Minorities in STEM Fields**

The USDA Women and Minorities in Science, Technology, Engineering and Mathematics Fields Program supports research and extension projects that increase participation by women and underrepresented groups from rural areas in STEM. The FY 2017 program will support education/teaching, extension, research and integrated projects. Applications are limited to one per institution. Individuals should express interest in this funding opportunity at [fundingopps@iastate.edu](mailto:fundingopps@iastate.edu) by May 3. [More](#)

### **Limited Submission: NIH Centers for Agricultural Safety and Health**

The National Institutes of Health Centers for Agricultural Safety and Health (U54) will conduct high-quality research and help translate scientific discoveries into practical applications to improve worker safety and health in the areas of agriculture, forestry and fishing. Center structure will take advantage of diverse scientific resources and focus on local, regional and/or national worker safety and health issues. Centers will emphasize the creation and implementation of evidence-based solutions to important agricultural safety and health problems. Ten awards of up to \$1.35 million each are anticipated. Applications are limited to one per institution. Individuals should express interest in this funding opportunity at [fundingopps@iastate.edu](mailto:fundingopps@iastate.edu) by May 31. [More](#)

### **Funding Information, Opportunities and Deadline Reminders**

**Dates listed are application deadlines. Contact: Roxanne Clemens, [rclemens@iastate.edu](mailto:rclemens@iastate.edu)**
